General

General Ideas

- ★ Philanthropic Events as a theme

General Cons:

- ★ There isn't anywhere the option to say "I'm not interested in this event" and remove it from your feed

Apps

Facebook Local

Pros:

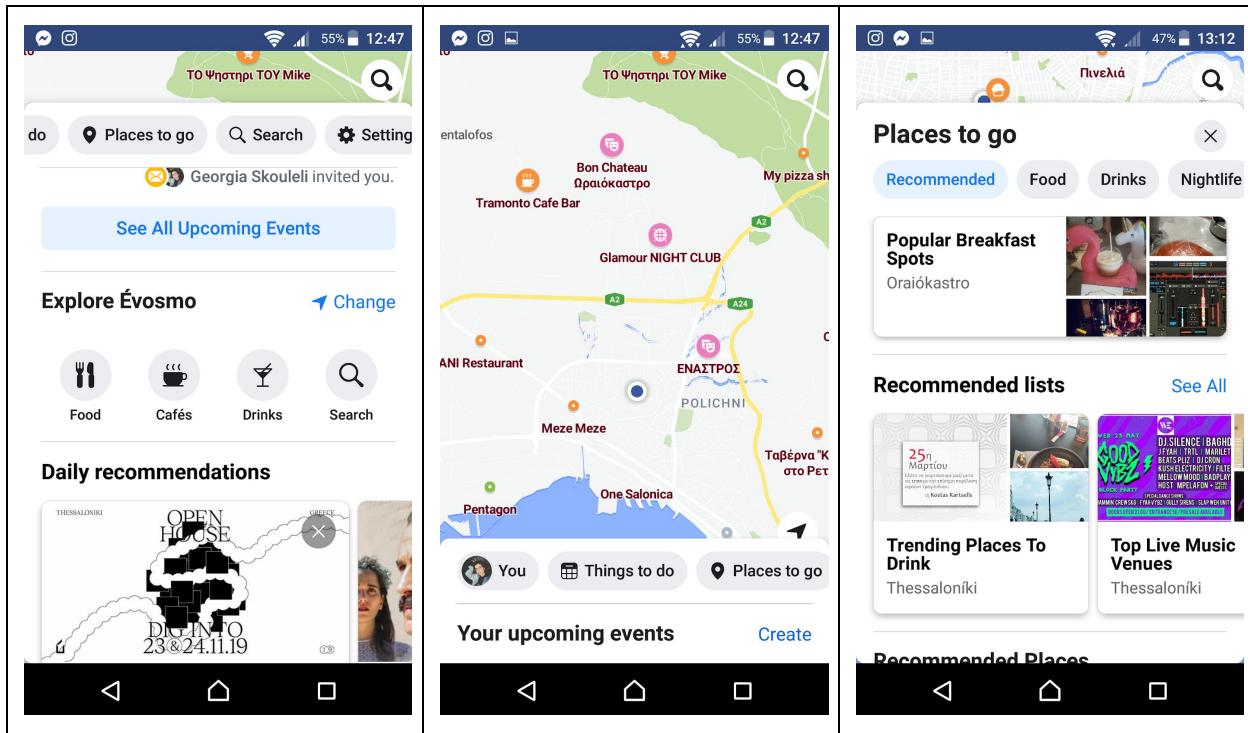

- ★ Map to scroll around and see events
- ★ "Message Friends" (who will go or are just interested in the event) button inside an event
- ★ "View Event" button, which directs you to the site of the event (in this situation the site is the original facebook event link)
- ★ I did find interesting events I didn't know, even if I tried the app a little bit to test it
- ★ Shows price range by symbols (For instance "\$\$\$" if it's quite expensive)
- ★ Religion (???????)
- ★ If you click many unrelated topics at the same time, it stops suggesting based on your choices nor saying it can't find an event with all the topics you've chosen. It suggests random ones

Cons:

- ★ Too busy interface
- ★ Εμφανίζει άχροντες πληροφορίες, πχ γυμναστήρια (?), Οίκο Νυφικών
- ★ Δεν υπάρχει επιλογή για deadline αγοράς εισιτηρίου (Υπάρχει στο description "Δήλωσε συμμετοχή μέχρι *ημερομηνία που έχει λήξει*", και ακόμα μ προτείνει το event για να πάω)
- ★ Organizer's information is in the description, you are unable to click the email and contact them, you have to copy it manually and then open your mail software
- ★ Bugs: Shows "today's" events, even if you clicked to show tomorrow's ones
- ★ Children's suggestions included event for "Εξιχνίαση μιας Ανθρωποκτονίας" for adults

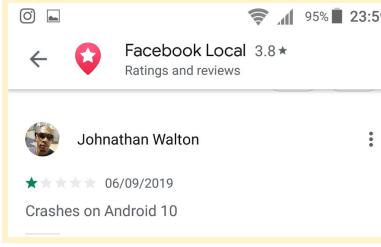

- ★ When I am in a specific topic (for instance “music”) the events showing at the map behind don’t change
- ★ “Attractions” button provides “One Salonika” and places similar to this one. Not attractions like the “White Tower”
- ★ At search it lets me choose either the theme or the date (?) at first, also just one category. AFTER i click one category, it gives me the option to choose from the suggested choices
- ★ It suggested MANY events from Bulgaria for some reason

App reviews

<p> Caitlyn Grant :::</p> <p>★★★★★ 17/09/2019</p> <p>I wanted this so i could remove FB & just keep events, but it's not really functional. No notifications, so I'm not seeing things that I'm invited to unless they're coming up soon; no notifications within events I'm already going to; no notifications from events I'm hosting.to check for notifications or updates i have to open the event through Facebook which seems to defeat the purpose. Also no way of hiding events that I'm invited to but am not interested in.</p>	<p> Hanne Fagerjord Karlsen :::</p> <p>★★★★★ 15/09/2019</p> <p>The redesign made the app clunky and nearly useless. No proper calendar and the map is always visible/in the background. Less available space for information, which means you need to scroll around a lot. Hard to find your event invites and you can no longer view event discussions.</p>	<p> Karin Velarde :::</p> <p>★★★★★ 04/10/2019</p> <p>I loved the calendar portion of this app. Now that they removed the calendar this app is basically useless to me. Unless they fix what they updated (broke) there's no reason for me to use this app. Sad :(</p>

 Lloyd Sharp ★★★★★ 29/09/2019 until this app returns to its old format with a Calendar and proper event tracking, aka the way it was before, I have no use for this app... ill stick to Facebook syncing with Google calendar until you stop fixing what isn't broken	 Justina m ★★★★★ 26/09/2019 So many bugs and simply not user friendly yet. Can't even report a bug within the app. Looking forward till it works	 Ilaria Meggetto ★★★★★ 30/09/2019 Very limited search functionality. It would be nice to be able to customize preferences or screen repetitive events like yoga classes promoted every week
 Facebook Local 3.8★ Ratings and reviews  Johnathan Walton ★★★★★ 06/09/2019 Crashes on Android 10	 Aaron Drayton ★★★★★ 30/08/2019 I really want to like this app, it has a great setup and is a great concept but unfortunately a big let down is the fact that it never loads first go, i always have to exit the app, close it and then open it again and sometimes 2 or three times. i run android so i don't know if it is that but it is pretty ridiculous. one option that i would love to see from the app is that i can copy lists of people who are coming so i can paste them somewhere online for door lists too, just an idea.	 Eric Russo ★★★★★ 29/10/2019 Because I don't TRUST this company due to all the censorship/persecution/surveillance/hack stuff that's been released on news the last 3 years I've opted OUT of "external application FB platform". But this IS- a FB app like Messenger/Lite, almost an EXTENSION of FB....WTH!?! Make it work bozos. Only planning on using it INTERNAL to FB, you ain't getting all my other personal & calendar info. Deleting since I can't use. Stupid. I'll try again if developers get it together...unless it's planned scam?
 Jocelynn Luckett ★★★★★ 22/08/2019 Pulls events from FB to one platform for easy accessibility and viewing. Allows you to find events, food, live music, theater, festival, kid friendly outings and more going on around you wherever you are a big help when looking for things to do when you travel to new cities. Use it every weekend!	 Maria Loysen ★★★★★ 09/06/2019 this is a really nice app for finding events. easy to use, you can search pretty much anywhere to find events. great if you're new in town, or traveling. it uses way too much background data however. almost half a gig a month! the listing are often incomplete, or the map links don't work properly. it would be nice to have access to venues, not just events also. not bad FaceBook. please make it more data friendly. I'm going to have to delete it just because of the data issue. bummer.	 Laura ★★★★★ 07/07/2019 - Under the "Today" tab, it shows events happening IN THE FUTURE. Same ones again & again. Maddening. - When I click "Interested" in an event, the star goes red but I get NO FURTHER REMINDERS or notices of the event. So why bother? - Would be GREAT to have a Google calendar API that offers to place events clicked "Interested" in a user's calendar!! I'm a UI/UX designer. I struggle with planning weekends & remembering events, but am disappointed so far.

Eventbrite app

Pros

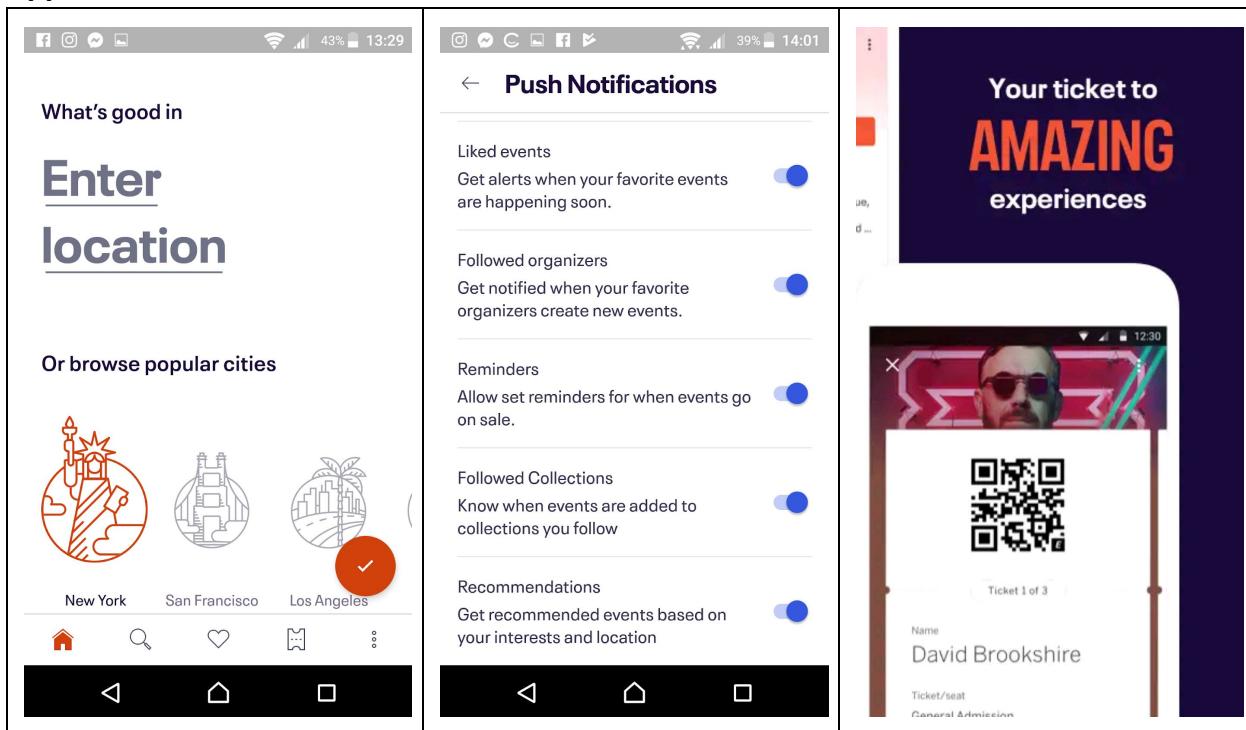

- ★ Starts up with a motivational quote “Get Up, Get Started+++”
- ★ Minimal, first page the user sees and can interact includes just the location input manually. I really like the small images for some places.
- ★ Have a section for all your bought tickets (Upcoming and Past ones)
- ★ Have separate event for Planning your event
- ★ “Love” (/Save) option of events
- ★ Friendly interface: for instance while choosing a category, it doesn’t say “Choose Category”, instead it says “What sounds good?”
- ★ Search by Organizer
- ★ Google file to suggest improvements of the app
- ★ Notifications button at the top right of the main page, something like facebook

- ★ While I kept browsing without clicking “like” on anything, the app’s “like” section started lighting up, when I clicked it, it suggested I started liking events so I get notified

Cons

- ★ First thing shown, is general events. I would prefer something more specific for the user. The only information used is the location.
- ★ Price research options, it only provides “Free stuff only” option, you can’t choose a price range
- ★ Not many events

<p> Gerard Sweeney</p> <p>★★★★★ 01/11/2019</p> <p>If you can add in the ability to search for a particular string (eg coder) rather than having to filter through all of the category, that would be much improved.</p>	<p> BQ Lee</p> <p>★★★★★ 28/10/2019</p> <p>It's simple and straight to the point!! I love it. I just wish more links were provided to explore events further than a paragraph. If it were I would've given it five stars.</p>	<p> Fiona Dixon</p> <p>★★★★★ 23/10/2019</p> <p>Fantastic for finding opportunities for homeschooling both free and paid. It would be fantastic to see a search feature on mobile so we can search for particular activities rather than having to search through each item to find them.</p>

 <p>Matthew Brewer</p> <p>★★★★★ 22/10/2019</p> <p>This app makes buying tickets so much easier. Plus my ticket is right on my phone so there's no waiting for mail or having to print anything out. What a great app to have</p>	 <p>Jazmin-Alexis Bullock</p> <p>★★★★★ 09/10/2019</p> <p>One of my go-to apps when I'm trying to find something to do in town and when I'm out of town! I like how convenient it is to find, save, pay, and show tickets for events instead of digging through emails or having to print out my tickets to get in events. Love it!</p>	 <p>Shana Dorsett</p> <p>★★★★★ 28/08/2019</p> <p>Love Eventbrite, it's not just for purchasing tickets to concerts and entertainment events. There are learning events, business events, hobbyist events, and more. The events and programs listed range from free to \$500+. You can follow the organizer of the event so you're notified when future events from that organizer are scheduled. You can set your preferences on your profile and the app makes suggestions, you press the heart icon and you can set a reminder. My favorite is the calendar feature.</p>
 <p>Pudzey payaso</p> <p>★★★★★ 07/10/2019</p> <p>Easy to use wonderful app for keeping track of upcoming events great you can add events straight to Google calendar and save all tickets to the app means I'll never forget them again alerts for when tickets for interested events go on sale would be nice or it might be there but I haven't worked out how to turn it on</p>	 <p>Nicole Flemming</p> <p>★★★★★ 05/10/2019</p> <p>THIS IS SUCH AN AMAZING APP! IT HAS HELPED ME FIND ALL TYPE OF EVENTS IN MY AREA! FROM VOLUNTEER EVENTS, TO FURTHERING MY EDUCATION EVENTS, FUN AND LOCAL EVENTS, HOLIDAY EVENTS....EVERY EVENT THAT YOU CAN THINK OF, YOU'LL FIND ON EVENTBRITE!!!! I LOVE IT! GOING TO VOLUNTEER THIS WEEKEND AND CAN'T WAIT, THEN HAVE AN EDUCATIONAL EVENT THAT I CAN'T ATTEND NEXT MONTH! LOVE YOU EVENTBRITE!!!!!! Highly recommend.</p>
 <p>Tristan Ruhl</p> <p>★★★★★ 23/10/2019</p> <p>Best app for tickets, finding concerts through them can be annoying but most concerts will link through Eventbrite if you can find the artist's link to their tix</p>	 <p>Ana Gomes</p> <p>★★★★★ 12/10/2019</p> <p>There are loads of events to search from, which is wonderful, but sometimes it can be a bit daunting.</p>	 <p>Margaret Baisden</p> <p>★★★★★ 30/09/2019</p> <p>Very good. App sometimes a bit confusing when searching for any specific tickets. Need a search button that you can use after entering the type of event you're looking for.</p>
 <p>Patrick Chuback</p> <p>★★★★★ 24/09/2019</p> <p>This is a great app, only drawback is lack of ability to drill down or spin off to a web page without losing your event info.</p>	 <p>Lauren Coombes</p> <p>★★★★★ 09/10/2019</p> <p>I love how the app adjusts the screen brightness when you open your ticket to make it easier to scan. DICE: Tickets for Live Music, Clubs & Events

Pros

- ★ Many photographs with “the same vibe”
- ★ Has “connect with Spotify”
- ★ Provides Music Events by the Artist’s Album
- ★ In concert’s details, there is an option to click “play” and listen to a sample of the band’s song
- ★ Line Up hours
- ★ Cool theme based on Squares
- ★ GREAT text animations
- ★ Unique TXT format
- ★ Keeps its theme, pictures might be monochromatic. Gives me “Spotify” vibes
- ★ Showcasing what is to be added to the app according to your spotify account

Cons

- ★ Have only specific places, doesn’t provide Greece
- ★ Only Phone verification to Sign Up

App

All Events in City

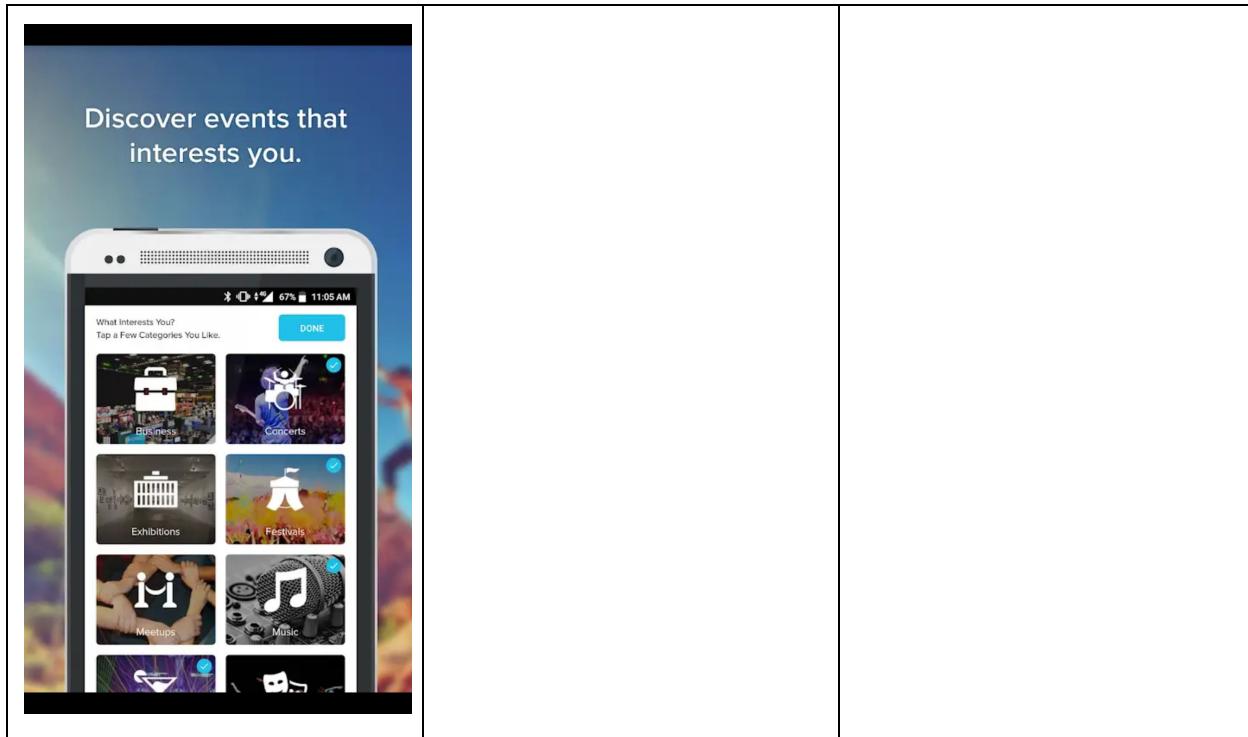

Pros

- ★ "You both are going to" easily accessed button from your friend list
- ★ You can filter based on gender your friend list
- ★ Recently viewed events button
- ★ "Request a callback" button
- ★ "Add to calendar" button
- ★ "Post event photos" button
- ★ Personal Profile. Someone can follow you

Cons

- ★ Has a FULL section, on people's "stories", unrelated to events. It's like watching a random person's facebook personal profile.
- ★ Just has Facebook and Google Log In
- ★ You HAVE to log in to search for Events. Else it just recommends some random ones (which I can't identify how personalized they are)
- ★ Has "Music" and "Concerts" as different categories
- ★ "Events for me" is just a section which showcase events by the users you follow
- ★ If you choose a day, all events will include that day, but almost all are events lasting multiple days

- ★ Not many digital graphics or pictures
- ★ Not much personalization

<p> Pradeep Aniruddha ::</p> <p>★★★★★ 13/10/2019</p> <p>Good one .. I liked the time based sorting of events. One suggestion : Please keep one event listing limited to one category such that we don't come across the same event in multiple categories.</p>	<p> Kim Peters ::</p> <p>★★★★★ 27/10/2019</p> <p>Found lots of events that weren't advertised in the local papers or broadcasts. Includes everything from book signings to bourbon tastings. Easy to buy tickets or sign up for events.</p>	<p> Monish Bhanushali ::</p> <p>★★★★★ 25/08/2019</p> <p>Pros: 1. Superb App Cons: 1. Help / Support System is weak because of which small queries to get resolved quickly is difficult.</p>
<p> S. K. ::</p> <p>★★★★★ 14/08/2019</p> <p>Might be a nice app. But login only with Facebook or Google? No go, sorry! Instant un-install.</p>	<p> Margi Normandin ::</p> <p>★★★★★ 17/08/2019</p> <p>Great info! Can post right to my Calendar!! Thank you!</p>	<p> Wendean Marsh ::</p> <p>★★★★★ 30/06/2019</p> <p>Should be a widget, and should be able to save multiple communities as favorites. Don't like it. Found out how to add multiple communities, but this doesn't get integrated into my front page. Still have to input these communities separately rather than have them integrated into my page. Seems your need to know where I'm going is more important than my need to know what's available...</p>
<p> Nicholas L ::</p> <p>★★★★★ 15/07/2019</p> <p>Great idea, needs free search for events vs mixed paid ones. And easy way to report common scam ones.</p>	<p> PUBG Telugu Gamer ::</p> <p>★★★★★ 14/08/2019</p> <p>No events like move pressmeet, Audio Functions, pre release events... etc.</p>	<p> A Google user ::</p> <p>★★★★★ 06/04/2019</p> <p>Application is good. But EVERY WEEKEND becomes unusable... Maybe you should upgrade your infrastructure... Weekend is the date when this app is most used.</p>
